Subject: RE: Leviathan Mine - Interim Combined Treatment Demonstration Call

Lynda,

We do not have a detailed agenda for tomorrow's call. The primary purpose of the call is to address the LRWQCB's questions regarding the ICT Demonstration that were presented during our Monthly Status Update Call on Tuesday (8/15) and any other questions the team may have. We've been distributing weekly updates summarizing operations, monitoring results, and treatment volumes. If there are any questions about sampling results, we can refer to the latest report sent out yesterday, which includes tabulated lab data for samples collected through August 8.

Thanks,

Marc

Marc R. Lombardi, CEM, PG

Subject: RE: Leviathan Mine - Interim Combined Treatment Demonstration Call

Thanks Marc!

Will you have an agenda and some of the materials that were requested during our monthly call to share?

Some thoughts:

- Tabular summary of data
- Tabular summary of water volumes/levels/estimated treatment time etc
- Daily sampling during Shakedown
- Schedule of the demonstration project to date and anticipated plans
- Coordination with Waterboard
- Discuss and plan for pond capacity for upcoming winter/rain season

-----Original Appointment-----
